EHA Research Fellowships Call for applications opens in March 2014

Applications are invited from clinical or non-clinical researchers wanting to pursue research in the field of malignant or non-malignant hematological diseases.

We have three categories of EHA Research Fellowships as described below. These fellowships are not aimed at established group leaders. However applications may be considered from individuals within two years of starting their first independent group leader position.

Deadline	Date
Submission open	March 2014
Deadline application	August 1, 2014
Interviews with shortlisted applicants	November 2014
Award notification	First week of December 2014
Start research project	January 1, 2015
